

March 28, 2003

Department of Environmental Quality
Division of Water Quality
288 North 1460 West
P.O. Box 144870
Salt Lake City, UT 84114-4870

Gentleman:

Enclosed are the monthly discharge reports for the Deer Creek, Des-Bee-Dove, Trail Mountain, and Wilberg mines and the Hunter Coal Preparation and Blending Facility for the month of February, 2003. The Deer Creek mine discharge (UT0023604-001) exceeded the 30 day average and daily maximum for total iron with a value of 1.98 mg/L and 3.24 mg/L respectively. The discharge limit for iron at this site is 1.0 mg/L.

The exceedance occurred as a result of pipe maintenance. As piping was disturbed, deposits on the inside of the pipe dislodged. The particles were a slimy, rusty looking material. Discharge was immediately routed away from the creek to a holding pond used by the power plant below the mine site. Discharge was routed back into the creek after the particles cleared. Dissolved iron reported <0.005 mg/L.

If you have any questions concerning this report, please feel free to call Dennis Oakley at 687-4825 or Chuck Semborski at 687-4720.

Sincerely,

Carl Pollastro
Technical Services Manager

Encl
